GENERAL INFORMATION

The Summer School was established at the College in May, 1915, by authority of the Board of Trustees, and held its first session in 1916. A six or eleven weeks session has been held every summer since that date.

The 1954 summer session will be eleven weeks in length, beginning June 7 and ending August 20.

The first term will consist of six weeks, beginning June 7 and ending July 16 during which classes will be conducted five days per week.

The second term will consist of five weeks, beginning July 19 and ending August 20 during which classes will be conducted six days per week.

In accordance with the aim of the Summer School to serve public education in the State to the fullest possible extent, a special effort is made to meet the needs of those wishing to obtain or to reinstate old certificates; of high school teachers and others wishing credit toward degrees; of public school teachers wishing to study modern methods of teaching any grade of school work; of students enrolled in the regular session at this and other colleges who wish to make up work or to accelerate the normal time required for graduation; of those desiring special work in home economics, music, art, speech, physical education, social service, secretarial science, and other special fields; of those desiring to teach in junior or senior high school or to secure additional training in that field; of those wishing a thorough course in public school music; of those wishing general physical education courses preparatory to teaching that subject, to coaching athletics, or doing recreation work; of those interested in repertory classes in violin, piano, and organ; of those desiring high school credit.

CURRICULA CHANGES AT ALABAMA COLLEGE

Curricula changes adopted by the Administration and Faculty of Alabama College recently were put into effect during the 1950 session of the Summer School.

Freshmen entering since 1950 have begun their work on the new curricula patterns.

Upper-classmen during the Summer School may continue their work on the curriculum in effect at the time they began work at Alabama College, or, in certain respects, they may change to the new plan.

Prospective Summer School students other than freshmen may communicate with the Dean, Registrar or Summer School Director as to how the new curricula might affect their summer school work.

The principal changes in curricula consist of a slight reduction in the hours required for graduation and the introduction of Bachelor of Science curricula in teacher training and a number of other fields. The principal difference between the Bachelor of Science and Bachelor of Arts curricula in teacher training consists of the requirements of 12 hours of language in the Bachelor of Arts and 18 hours of science in the Bachelor of Science.

Courses are offered in art, biology, chemistry and physics, education, English, history, home economics, mathematics, modern languages, music, physical education, psychology, secretarial science, sociology, social work, and speech.

By attending the entire eleven weeks, a student may complete a year's work in such fundamental courses as biology, chemistry, English, history, mathematics, and modern languages.

The Summer School and Present Needs

The summer school program this summer has been planned to meet the most pressing of the educational needs of the state.

ACCELERATION OF COLLEGE GRADUATION

For a number of years a beginning college student could finish the regular four-year program at Alabama College by attending three regular sessions and three full summer sessions. A student could graduate a semester earlier than normal by attending a full summer session and another five or six weeks term of a summer session. This summer, additional courses will continue to be offered during the summer session in order that this speed-up program may be made easier to accomplish.

In response to the increased demand for trained workers in several fields, the following curricula will be strengthened by additional courses this summer:

Teacher Training

The scarcity of well trained elementary school teachers in Alabama and the nation is a critical problem.

The Alabama College Summer School is attempting to help supply more teachers by setting up its teacher training workshop program, by liberalizing its training, by the introduction of Bachelor of Science curricula for the training of both elementary and high school teachers, and by preparing teachers for certificates lower than those based on college graduation. Alabama College has been granted the privilege of applying for the Class E and Class D certificates for teachers who meet the requirements, provided these teachers have previously held lower type certificates.

MUSIC IN SECONDARY SCHOOLS

Victor Young, who has had much experience in the schools of Alabama, is on the regular Laboratory School staff as Supervisor of Music. Mr. Young, during the summer session, will have the school band for demonstration and for practice in conducting. He will also have charge of the integration of music with the other school subjects.

WIND PEDAGOGY

Mr. Young will offer in the School of Music training in the development of bands, selection and material, purchase of instruments, technique of rehearsal and of the marching band.

Instrumental study upon the key band instruments is included in the course or any special instrument may be studied. Teaching technic for instruction in private lessons, small ensembles and full band is developed.

The College provides instruments for this instruction but students will find it to their advantage to bring instruments they may own.

WORKSHOP PROGRAMS**SUMMER ART CENTER****JUNE 7-JULY 16**

For the eleventh year Alabama College will conduct a Summer Art Center on its campus to coincide with the first term of the Summer School. The center is designed for experienced artists. The aim is to offer freedom for individual achievement in art through actual work, criticism and discussion. Individual criticism will be given by members of the art faculty to those who desire it. Group criticisms and informal discussions will be arranged for if the group so desires. For information write to Miss Dawn Kennedy, Alabama College.

WORKSHOP ON RESOURCE EDUCATION**JUNE 7-JULY 16**

Alabama College will sponsor for the eleventh time a workshop dealing with the state's resources—human and natural. Each of the major resource fields will be surveyed briefly by the entire group. Following study and discussion by the group, experts in the various resource fields will be invited to work with the group. At all times an attempt will be made to relate the program of the workshop to that of the community resource use and planning in those places in which the participants live and teach.

Those participating in the workshop may earn six semester hours of credit if full time is devoted to it. Those devoting half-time to the workshop may earn three semester hours of credit. Credit may be secured in Geography 332, three hours of Social Science or electives.

Students who have spent a previous summer in full-time work in the workshop may earn three semester hours credit in the workshop by taking Social Science S450, Special Problems in Resource Use, for three hours.

ALCOHOL EDUCATION WORKSHOP**JUNE 7-JULY 16 and JULY 19-AUGUST 20**

Alabama College, for the sixth summer, will conduct a workshop on Alcohol Education during the first and second terms of the Summer School.

College credit may be earned by work in these workshops, amounting to 2, 3 or 4 semester hours.

**SUMMER WORKSHOP PROGRAM AND DEMONSTRATION
SCHOOL FOR TEACHERS****JUNE 7-JULY 16**

Alabama College will again set up a Summer Workshop program and Demonstration School during the first term of the summer session. A staff of three full-time consultants and twelve demonstration teachers has been chosen for their ability and success with the educational philosophy and practice advocated by the curriculum programs of Alabama and several other southern states.

The work in the Workshop Program will be very flexible and will be determined by the needs and interests of the teachers involved. Groupings of teachers with similar interests will be made and remade as necessity dictates. Consultants and demonstration teachers will be available for work with the various groups. Group and conference work will be carried on principally in the afternoons. Forenoons will be used principally for observation in the demonstration school and for conferences with demonstration school teachers.

The work this summer is designed for both elementary and high school teachers. Features of the program are:

1. Demonstration of Elementary and High School Work.

- A. The elementary school will demonstrate the practical application of modern principles and theory, featuring activity programs, large units of work, pupil initiative, individual needs, creative thinking, and character development. The elementary demonstration school will be the center around which all the work for elementary teachers will revolve.
- B. The high school will demonstrate the same features characterizing the work of the elementary school and will serve as a center for all phases of the work for high school teachers.

2. An Integrated Program of Observation, Work, Study and Recreation.

The Workshop Program will be concerned primarily with the philosophy, methods, techniques and materials underlying the state curriculum program. In accordance with their needs and interests, teachers in the program will work with and study together in small groups; they will help plan the work of the demonstration school; they will help with the guidance of children; they will develop units of work; they will work in the manual and fine arts shops; they will participate in music, physical activities and dancing; they will plan and participate in a program of recreation and vital living experiences while on the campus.

Teachers Eligible for Workshop Program.

Any teacher sincerely interested in improving her work with children is eligible for the workshop. The workshop should appeal to the following groups of teachers:

1. Those teachers in service who are interested in improving their teaching by the use of modern methods and procedures.
2. Former teachers who have been pressed into service again or who expect to begin teaching again next year because of emergency conditions and who desire to become familiar with modern methods and procedures. Many of these teachers may desire to reinstate expired teaching certificates.

3. Teachers who desire to raise their present certificate, and thereby command a better salary.
4. College students who desire professional training for teaching.

The Workshop Program is designed for teachers who expect to devote their entire time to it. Provisions will be made, however, by which other students may have part of their work in this program.

College Credits for Workshop Program.

Undergraduate credit to the extent of 6 or 7 semester hours in 3 or 4 courses may be chosen from most of the education courses offered by the College and from several of the subject matter courses. Students should decide at registration upon those courses for which they desire credit. Their work in the Workshop will be partly determined by the courses for which they desire credit. Workshop credit may be taken in any of the following courses:

Education:

300, 2 or 3 hours; 340.1, 2 hours; 340.2, 4 hours; 340.4, 2 hours; 340.5, 2 or 3 hours; 340.7, 2 hours; 340.8, 2 hours; 350.2, 2 hours; 350.4, 2 hours; 350.7, 2 or 3 hours; 350.8, 2 hours; 370, 2 hours; 381, 2 hours; 382, 2 hours; 391, 2 hours; 410, 2 hours; 440, 2 or 3 hours; 442, 2 hours; 450, 2 or 3 hours; 451, 1 or 2 hours; 452, 2 hours; 461, 2 hours; 462, 2 hours; 490, 2 hours; 491, 2 hours.

Art:

400, 1-3 hours.

Physical Education:

220, 2 hours; 231, 1 hour; 331, 1 hour; 431, 1 hour.

School Music:

311, 2 hours; 312, 2 hours.

Science:

Biology 350, 2 hours.

Dates for Demonstration School and Summer Program.

The summer Workshop Program will coincide with the first term of Summer School, June 7-July 16, 1954. The demonstration school will be open for observation from June 14 to July 15.

Cost of Workshop Program.

Those attending six weeks and taking six semester hours of credit will pay from \$87.00 to \$90.00 for room, board, laundry, and College Fee.

Pupils Eligible for Demonstration Schools—Costs—Living Arrangements.

A limited number of pupils outside of the town of Montevallo can be accepted in the Demonstration Elementary and High Schools. A \$3.00 registration fee will be charged for elementary or junior high school pupils. Senior high pupils will pay a registration fee of \$4.00. Demonstration School pupils must make other rooming arrangements in the town.

Pupils not living in Montevallo who desire to attend the Demonstration Schools should apply to the Director of the Summer School as early as possible.

RECREATIONAL FACILITIES**Lake**

The 28-acre lake located within walking distance of the campus will be available to students this summer. Provisions will be made for boating.

Student Camp House

The Student Camp House, located on a hillside overlooking the lake, includes a large living room, dining room, completely equipped kitchen and two sleeping porches that will accommodate 48 overnight guests.

Swimming Pool

The new indoor swimming pool which was formally opened in December, 1951, will be a popular place this summer. The pool basin is 75'x30' and the depth of the water ranges from 3' to 9' 6". The pool capacity is approximately 118,000 gallons and there is a complete recirculation of water every eight hours. Aluminum doors roll up to connect the pool deck with the sun deck. Swim suits and towels are provided by the College.

Field House

Facilities are available here for badminton, volley ball, table tennis, shuffleboard, social dance, square dance and modern dance.

Sports Field

There are five all-weather and five clay tennis courts available to students at all times. An archery range, badminton, volley ball courts, softball diamonds and golf greens are also available.

ENTERTAINMENT FEATURES

Among the entertainment features planned for the summer session are: motion pictures; addresses by visiting lecturers; concerts; recitals; plays; intramural tournaments; hikes; picnics; tours, and receptions.

COST OF ATTENDANCE**First Term**

*Room, board and laundry.....	\$65.00-\$68.00

**COST FOR NON-CREDIT SHORT COURSES AND
CONFERENCES**

Room, board and laundry for those desiring to spend short periods of time will be \$3.50 a day. Special fees will depend upon the type of work and upon its duration. Information as to fees for short time work will be furnished upon request.

*The lower charge is made when two persons occupy the same room. These charges are based on the assumption that students bring their own linens.

**The College fee here charged includes recreation fee of 50c. The College makes no separate charge for laboratory fees. Students are held responsible for damage and breakage in laboratories.

REFUND OF FEES

No fees, except those for room, board and laundry, will be refunded to those students who resign after completing their registration for a summer school term.

A student who withdraws before completion of a term is charged \$1.75 per day for room, board, and laundry from the opening of the term until notice of her withdrawal is received by the Dean of Students.

CAMPUS AND OFF-CAMPUS ROOM AND BOARD

Room and meals on the college campus are available to all full-time summer school students. A full-time student is interpreted as one who is pursuing at least four college semester hours. Students taking less than this amount of work are not privileged to secure a room and take meals on the campus except by special permission of the administration.

Mature students may secure room, board, or facilities for light housekeeping in many homes and apartment houses in the town at reasonable rates. Regular Alabama College students and others under 21 years of age must have the approval of the president of the College or the Director of the Summer School before they can secure living accommodations off campus during the summer session.

Students beginning a term of the summer session using living facilities of the College will not be refunded living costs paid for the term should they desire to change to living facilities of the town during the term.

EQUIPMENT

The entire equipment of the campus is available for use of Summer School students. This includes dormitories, dining halls, library, auditoriums, administration building, music building, elementary and high school buildings, laundry, home management house, infirmary, gymnasium, lake, swimming pool, athletic fields, and tennis courts.

The library will be open every day of this Summer School session, excepting Sundays, on the following schedule: 7:55 to 12:40 a.m., 1:45 to 5:00 p.m., and 7:00 to 9:30 p.m.; 9:00 to 12:00 a.m. and 2:00 to 5:00 p.m. on Saturdays.

College students may purchase textbooks and other materials at the supply store in Reynolds Hall. High School students should secure the state-adopted textbooks from some local depository.

Each student must furnish pillow, linen, and blankets or comforts. (Only single or three-quarter beds are used.)

COLLEGE CREDIT

College students will have the privilege of working to remove conditions or to secure advanced standing. Courses satisfactorily completed in the Summer School will be credited in the regular session provided they form a part of the regular curriculum.

REGISTRATION

Registration for the first term will be held Monday, June 7. Students will be registered on later dates, but full credit may not be given for those entering after June 11. Anyone expecting to register after June 11 should communicate with the Director of the Summer School as to credit work allowed registrants. Class work will begin Tuesday, June 8, at 8:00 a.m. All students who have not registered and paid their fees by 12:00 noon Wednesday, June 9, will pay the late registration fee of \$2.00.

Registration for the second term will be held on the afternoons of July 15 and 16 for those in attendance the first term. Others may register on Monday, July 19. Classes will begin on Monday, July 19, at 8:00 a.m. All students who have not registered and paid their fees by 12:00 noon on Wednesday, July 21, will pay a late registration fee of \$2.00.

ADMISSION AND ROOM RESERVATION

Those desiring to apply for admission and express a choice for room should fill out an Application for Admission blank and mail it to Director of Summer School. With the application a room reservation fee of \$2.50 by money order or check should be enclosed. Cash should never be sent. Upon registration the first day of the summer term, the room reservation fee will be credited to the student's account. Should the applicant be unable to attend, the \$2.50 fee will be refunded only if the Director of the Summer School is notified by June 1. The Application for Admission blank is enclosed with this bulletin.

INTRODUCTION OF NEW COURSES AND ELIMINATION OF ANNOUNCED COURSES

The right is reserved to introduce new courses for which there is adequate demand and to eliminate courses for which the enrollment is insufficient. Five students per class is the minimum enrollment except in special cases.

TEACHERS' CERTIFICATES

Requirements for the issuance and reinstatement of all of the several types of Alabama teachers' certificates may be met in full or in part by work completed in summer school. Those interested in securing a certificate through summer school work at Alabama College may obtain full information from the Summer School Director. Those interested in reinstating a certificate are requested to bring their old ones with them.

The liberal arts colleges of the state have been allowed to give training for, and to apply for the Class D and Class E non-professional certificates, provided teachers applying for these certificates have held lower grade teaching certificates in Alabama.

Due to the war emergency, the Alabama State Department of Education has set up a new certificate to be issued until further notice.

The Defense Certificate will be issued upon request of a county or city superintendent to a person who has had as much as one year of college work. This is not a regular teaching certificate, and the holder is not entitled to the benefits of the tenure law.

MUSIC

FIRST TERM

The music courses offered in the Summer School are designed for two types of students—the experienced teacher and the undergraduate student. For the teacher, work is offered which stresses the modern educational approach. The undergraduate will find practically all of the regular college courses available.

Short courses without credit consisting of discussion sessions based upon library work are offered to those who cannot take time for the full session.

In the realm of performance, study of all degrees of advancement is possible. The mature performer will find especially fine opportunity for study with experienced teachers of proven musicianship.

There are many demands for well equipped teachers of band and orchestral instruments. The course seeks to lay a foundation for both the elementary and secondary levels. The School of Music has a complete equipment of band and orchestral instruments for use in this work, but anyone owning an instrument is advised to bring it. The Demonstration School band offers laboratory experience for the wind instruments.

The field of elementary education in music calls for special training beyond the teacher's own musical needs. The child's attitude toward the basic musical experiences are so foreign to the adult approach that only the specially trained can handle the problem effectively. The elementary school music course stresses the basic psychology and philosophy of modern music instruction.

Beethoven and Chopin

Mr. Ziolkowski will offer a special corrective course for finger and wrist technique emphasizing scales, chords, and octaves based on personal experience and discussions with famous artists.

Analysis of all important compositions of Chopin. This course is planned for listeners as well as performers.

Class Piano

Mr. LeBaron will offer work in the psychology of music and education that forms the basis of work in class piano. The resulting point of view will apply also in private teaching, leading to an earlier grasp of musicianship on the part of the pupil.

Applied Music

Applied music work may stress either technique and performance or pedagogy, according to the needs of the student. The applied music courses will be offered as follows.

Piano	Mieczyslaw Ziolkowski
Wind Instruments	Victor Young
Organ	H. D. LeBaron

The organ work not only offers opportunity for the use of the 83-stop Skinner organ in Palmer Hall, but work on the electric organ is also possible. Applied music work may be taken for any length period unless college credit is desired.

School Music

Courses in methods, techniques and materials for both elementary and secondary schools will be offered. The Demonstration School offers observation of the integration of music in the work of the modern progressive school.

Music S311, S312. School Music for The Grade Teacher.

Theory

In addition to the regular college credit in theory, the following special summer school courses in composition will be offered:

Music S151. Parallel Composition.

Credit, 2 or 3 semester hours.

Music S251. Analysis.

Credit, 2 semester hours.

Music S451. Appreciation.

Credit, 1, 2, or 3 semester hours.

Band and Orchestra

The demand for teachers equipped to organize and direct bands is increasing. There is also a nationally recognized need to interest students in string instruments. It is the purpose of the following course to lay the foundation for such an undertaking at both the elementary and secondary level.

Music S301.6. Wind Pedagogy.

A practice course in playing and teaching the instruments of the band and orchestra. The place, aim, and general method of instrumental music in the schools. Procedure in forming a band or orchestra, technique of rehearsing. Credit, 2 semester hours.

COURSE NUMBERS AND CREDIT

Courses corresponding to regular college courses will carry the numbers and credit given in the college catalog. Courses which do not

correspond to the regular college courses will carry credit based on the amount of work planned and will carry numbers as follows:

Applied Music	S131, S132
School Music	S141, S142
Theory	S151, S152
Wind Pedagogy	S161, S162

SECOND TERM

Those interested in music study during the second term should consult the Director of the School of Music before July 3.

DEMONSTRATION SCHOOLS

The Elementary and Junior High Demonstration Schools will operate for six weeks. The Senior High Demonstration School will operate one term of eight weeks.

The registration fee will be \$3.00 for the Elementary and Junior High Schools and \$4.00 for the Senior High School.

A student may earn a maximum of one unit work in the Senior High School. This may be one unit in a single subject or two half-units. No fee will be charged other than the registration fee.

Elementary, Junior High or Senior School pupils outside of Montevallo will be admitted to the Demonstration Schools. Pupils desiring work in any of the three divisions should make application as early as possible. Children whose mothers are in the Summer School will be given preference in the Demonstration Schools.

We cannot accept elementary or junior high school pupils in our college dormitories. We will allow senior high school girls to room in the dormitory in case they room with a mother or close relative who will take responsibility for them. Children, however, may secure meals in the college dining room. Mothers who desire to bring their children with them to Summer School will be helped to find living accommodations near the College.
